## NUM-IC Programs

### Bachelor's Programs:

#### INTERNATIONAL BUSINESS (BBA)

This is an English-based program, the theory and practice are to be provided during the class sessions in an international business environment. Our aim is to cultivate an inquisitive mind and a scientific methodological approach to problem-solving. Students are provided with a detailed understanding of the international business framework within which the firm operates as well as how domestic and international economic, political, legal, technological, and societal factors affect the business decision-making process.

#### GLOBAL ENTREPRENEURSHIP & INNOVATION (BBA)

The Bachelor's degree (BBA) in Global Entrepreneurship & Innovation is an interdisciplinary program that provides the essential skills for success in any business endeavor, be it a startup, social enterprise, international company, or global organization. Students will learn leadership skills and how to build effective teams to deliver value to organizations in terms of launching new products and services, improving organizational systems and processes, and developing new innovative business models. The program will utilize experiential and project-based learning methodologies. Students in the program will develop an entrepreneurial and innovative mindset, which is essential for success in the 21st Century global economy.
